Datum

16.06.2022**Notice of price surcharge**

Dear ladies and gentlemen,

in the last half of year the political and economical situation in Europe has changed to such an extent nobody would have expected or would have considered possible.

As a consequence prices and costs have developed to a degree that was not predictable by the beginning of this year.

RENNSTEIG has, as in the previous years, steadily worked on improving processes as well as efficiency. Nevertheless the actual degree of cost increase, especially for steel and energy, can no more be compensated.

We have hoped for a soon pacification but unfortunately had to learn that we need to expect a longer duration of the high price level. Since several months we have carried the load of this high costs, but now we need to pass at least a part of them to our customers.

So you will surely understand that we need to add a price surcharge of 4,58 % to our full product range. This surcharge will be valid for all incoming orders starting with July, 15th 2022.

We ask you to consider that we are not going to accept incoming orders before the reference date that are exceeding the normal order quantity. We can only accept them by considering the price surcharge accordingly.

We are going to send you a customized price list with the new prices for your products in the next couple of days.

Thank you very much for your understanding.

Best Regards

Sascha Zmiskol
Managing Director
